

**Gentile Cliente**

Monastero Bormida, June 2016

We have the pleasure to call your attention to a very important year for us: 2016.

**This year our company celebrates 120 years: more than a century of history in baking.**

Only a few companies can boast a long history as well in Italy: a story of passion, work, research, quality, investment; but above all a story based on the TRUST that our customers have always given us.

A confidence that we conquered day by day, thanks to our high quality products produced according to original recipes from master bakers, with more innovative instruments.

We wish to share with you this important milestone, never disappointing to your expectations.

Best regards.
